

Pig suede clothes?

Question:

Is it permissible to wear a jacket made of pig suede?

Answer:

No it is not permissible for us muslim to wear anything from the pig. We cannot consume the meat of ghinzeer nor can we use its skin or its bones we cannot use its bristle hair as some toothbrushes are made from pig bristle and also some basting brushes.. therefore utmost care must be taken to ensure that our basting brushes in the kitchen as well as the bottle brushes we use for the baby bottles are synthetic and not made of bristle. A simple way to check this is to burn the bristle of the bottle or the basting brush, if it curls up, then its pig bristle.. but please contact your nearest halaal organisation for confirmation.
